PRACTICES Intellectual Property, Patents, Patent Prosecution and Counseling, Patent Office Trials, Medical Device and Technology, Life Sciences, Biotechnology, Chemical

Brooke Cohen Parker's practice spans nearly every facet of patent law. She leverages her background in chemical and biomedical engineering to provide excellent service to clients in a wide variety of technological fields.

Brooke obtains patents for clients in the United States and in foreign jurisdictions across the world. She is experienced prosecuting patents covering many different technologies, including medical devices, medical imaging technologies, artificial intelligence in the life sciences field, software, chemicals, and mechanical systems.

Moreover, Brooke both defends clients' patents and asserts the invalidity of their competitors' patents in post-grant proceedings before the Patent Trial and Appeals Board. Brooke also represents clients' interests against infringement allegations in district court.

Further, Brooke counsels clients on patent-related topics so that they can protect their inventions against competitors and minimize the infringement risk associated with their products. She provides non-infringement, invalidity, and patentability opinions for clients at any point in their product development and commercialization processes. Brooke also provides patent landscape and portfolio analyses for clients' for mergers or acquisitions.
